Management Advisory

Business targets are our challenge

Our goal is to support you implementing your business targets successfully.

Business and IT advisory, Best practice concepts, Management of Processes and Projects, Software Evaluation, System-integration, Quality Management.

Solution Engineering

Individual Software Development

wega is your partner for professional business IT solutions. We design concepts and software solutions upon customer request.

Identifying customer requirements and understanding our customers' business are key factors helping us to reach business targets and strategic goals by implementing optimal IT solutions.

wega considers these conditions, always aiming to integrate IT solutions in the customers' business environment by using adequate IT technologies. IT Solutions of **wega Informatik** are generating a longterm business value to our customers.

Technical Consulting

Know-how transfer for IT technology

Our 'Technical Consulting Service' features highly qualified experts in IT technology. Their know-how is based on experience gathered in many challenging IT projects. **wega** understands the technical part of your IT environment and brings you to the safe side of IT technology.

DBA Services

We care for your business data

wega is reliable and qualified to administrate your data and databases.

Company

In the IT service provider business **wega** is a well known and best established company.

During the past years of expansion and boom in the IT industry **wega** kept concentrating on quality and continuity. Contrary to the market developments it was important to us to grow slowly but controlled, thus building up the necessary business substance.

This strategy is our success and has a lasting positive effect to the relationship to our customers.

wega maintains an open and active partnership to their customers based on quality and confidence. Mutual trust is a fundamental part of the successful relationship to our customers which in many cases lasts over 10 years.

With over 25 employees **wega** is in the substantial position to handle various sizes of IT projects in an efficient way, depending on customer requirements.

Our open corporate culture is also appreciated by our customers.
